

Providing affordable solutions & services to meet complex IT requirements

Company Overview

Astra Infosys Inc., an SBA EDWOSB certified, 100% minority-owned Information Technology & Cyber Security company with extensive experience designing, developing, and managing mission-critical cloud infrastructure and applications for Government, Education, and Commercial clients.

Astra has developed proprietary technology Oktamatic to Optimize Cloud Inventory, Cost and Security Compliance. Oktamatic platform helps managing AWS GovCloud and Azure cloud inventory, cost & security compliance.

We are proud of our 100% customer retention rate over our 10-year history. We deliver Robust, Secure and Scalable mission critical technology solutions using an Agile delivery framework focusing on lean principles to reduce risk, optimize cost and accelerate time to market.

Our engagements begin with a deep dive into the clients' vision, goals, scope, TCO and expectations. Our ability to carefully manage client's expectations, form alliances and create passionate teams while balancing prudence with innovation, help us solve very complex problems for our clients.
